

Long-Range Facilities Task Force
March 19, 2013

Strengths of this meeting:

- Thanks for the yummy snacks.
- Please discourage side conversations. It makes it difficult to hear Michelle speak.
- Progress!
- Time to speak about “board meeting”.
- Good table discussion.
- We made a decision on something and that feels good, and it was at a higher rate than we agreed upon which is hopeful for all final decisions.
- Huge turnaround from last meeting.
- Feel more confident in the process.
- I wish we could have spent a little more time on the Tacoma article.
- Strongest meeting so far.
- Process strong.
- Open group discussion helps understand the passion/voice/of each other’s vision for consensus.
- Treats
- Pacing, however may be a bit too many turn and talks.
- Tacoma Schools article.

Comments/Suggestions for Improvement:

- Please discourage side conversations. It makes it difficult to hear Michelle speak.
- Too much talking among tables. Quicker tempo may be helpful.
- At times felt the comments from task force members were a bit dismissed.
- Fear of innovation.
- Smaller plate option more coffee.
- Consider innovations from the past such as store front schools and open concept schools and the reasons they failed.
- Try to get to the book
- Review charge at beginning of each meeting.
- Groups moving forward/back in table seating does not allow us to get a variety of opinions from the groups, when tables talk.
