

Long-Range Facilities Task Force
May 21, 2013

Strengths of this meeting:

- Michelle’s birthday and strawberry shortcake.
- People at our table were totally focused on how much it will cost. Thought it was much more important that quality of education factor picture?
- Started looking at facilities.
- Good to get info the data some.
- Open discussion with the groups.
- Really enjoyed getting into the “nitty-gritty”.
- The rotation of the tables is working well to gather other perspectives.
- Nice to read reports on grade configuration and hard data on schools.
- Transitions were smooth.
- Birthday treats!
- Thank you for the strawberry shortcake.
- Happy Birthday!

Comments/Suggestions for Improvement:

- What possibility is there for teams to visit other district/schools/programs?
- Less discussion of book.
- Encourage discussion on facilities discussion board (rarely used). People don’t know how to access it.
